IDENTIFIERS	Adult Education Act 1966

ABSTRACT

The adult basic education programs sponsored under the Adult Education Act of 1966 provided basic education to about 485,000 adult students throughout the nation and outlying areas during Fiscal Year 1969. This is an increase of about 29,000 students (6%) over the preceding year. New enrollees represented about 56% of total enrollment during the year, with 22% of new enrollees entering at the beginning level. A total of 85,659 students were reported as having successfully completed the program through the advanced (grade 8) level of instruction. This represents a 58% increase over the 54,100 who completed advanced level instruction the previous year. There were 3,548 state and local adult basic education workshops conducted for teachers during fiscal 1969. Approximately 28,000 of the 32,000 adult basic education staff in the nation received preservice and/or inservice training. (This report includes 18 tables on Federal grants to states during 1967-69; state and local adult basic education teachers, counselors, and other staff; conventional and programed instruction; dropouts and completers; classes and facilities; and such student characteristics as age, sex, race, ethnic groups, grade level, and geographic location.) HIGHLIGHTS

The Adult Basic Education programs sponsored under the Adult Education Act of 1966 provided basic education to approximately 485,000 adult students throughout the United States and outlying areas during fiscal year 1969. This reflects an increase in enrollment of approximately 29,000 students, or 6 percent over the preceding year.

New enrollees represented about 56 percent of the total enrollment during fiscal year 1969, with 22 percent of the new enrollees entering the programs at the beginning level.

A total of 85,659 students were reported as having successfully completed the program through the advanced or 8th grade level of instruction. This represents a 58 percent increase over the 54,100 who completed the program through the 8th grade level during the previous year.

There were 3,548 State and local Adult Basic Education workshops conducted for teachers during the year. Approximately 28,000 of the 32,000 Adult Basic Education staff in the Nation received preservice and/or inservice training.

FOREWORD

The 1968-69 edition is the second in a series of annual publications initiated by the Office of Education in 1968. Its purpose is to provide statistical information on the Adult Basic Education program sponsored by the U.S. Office of Education under Public Law 89-750. The data in this report were compiled from the Adult Basic Education annual program reports filed by each State and by each participating outlying area with the Office of Education's Bureau of Adult, Vocational, and Technical Education. The publication contains information on enrollments, student characteristics, completions, teachers, and school facilities.

Due to various State laws governing the collection of data, some States were unable to report specific items; therefore, each table so affected shows the total enrollment, a nonclassified total, and a total for those enrollees whom the States were able to classify by specific category.

This statistical publication consists of 17 tables prepared by the National Center for Educational Statistics, Adult and Vocational Education Surveys Branch. It was prepared under the direction of Nicholas Osso with the cooperation of the Division of Adult Education Programs.

INTRODUCTION

The Adult Basic Education program administered by the U.S. Office of Education was established under the Adult Education Act of 1966. This program offers to persons 18 years* of age and older the opportunity to overcome English language difficulties and attain reading, writing, and computational skills through the 8th grade level.

This is basically a State-operated program with the U.S. Office of Education alloting grants to States and outlying areas of the United States for the development and operation of Adult Basic Education programs.

Each of the 50 States, the District of Columbia, and each of the outlying areas, with the exception of the Trust Territories, must provide 10 percent of program costs and retain total responsibility for planning, supervisory services, teacher-training, curriculum development, evaluation, and all essential services for enrollees through the 8th grade. In fiscal year 1969 each State, the District of Columbia, and four outlying areas conducted Adult Basic Education programs.

Since fiscal year 1966, the first full year of the Adult Basic Education program, Federal grants to States and program enrollees have continued to increase:

	Federal grants to States	Enrollment
FY 1967	$26,280,000	388,935
FY 1968	30,590,000	455,730
FY 1969	36,000,000	484,626

The Office also awards grants to schools, colleges, universities, and public and private nonprofit organizations for special projects and teacher-training projects. In some cases, the 1966 act authorizes the Office to work directly with institutions and organizations in the development of new teacher-training techniques and special experimental and demonstration projects.

---

* As of June 30, 1969, the age limitation was reduced to 16 years (amended in the Vocational Education Amendments of 1968).

Teacher-Training and Special Projects

Fiscal year 1969 funds supported inservice and preservice training opportunities for 3,200 teachers, teacher-trainers, and administrators. The primary objective of the teacher-training projects is to provide the participants with current techniques in teaching adult basic skills.

During 4 years of operation with Federal funding, the Adult Basic Education programs have supported a series of national institutes for 4,348 teachers, teacher-trainers, administrators, and counselors. The training program grew from three institutes with 165 participants in 1965 to 32 institutes with 2,004 participants in 1968.

The central purpose of Special Experimental Demonstration Projects is to increase the effectiveness of the Adult Basic Education program. In 1968, the second year of special projects, the Office awarded grants totaling $6,550,000 to 21 special projects. The experimental categories included urban, rural migrant, and resource development. Public and private educational agencies conducted 28 special experimental demonstration projects in fiscal year 1969.

National Advisory Committee

The Adult Education Act of 1966 created a National Advisory Committee for Adult Basic Education to report annually to the President on the status of the Adult Basic Education program. In addition, the Committee must submit recommendations for program improvement, its concern being the achievement of Adult Basic Education program objectives.
